## SIMON JAMES

The Parallel Lounge Chair celebrates its robust steel frame rather than concealing it in the upholstery. The black steel frame is offset with the warmth and character of solid oak arms in our range of classic timber finishes. The upholstered seat and back inner is made from a combination of feather and foam to give a superior soft comfort.

Designed to work well in numbers or as a stand-alone chair.  
Available in a firmer density foam for the office and breakout area.

Made in New Zealand
