

NEA

DESIGNED BY PETER STRAKA
VIENNA 2007

Light in its purest and most simple form, the lighting object reduced to a simple fixture. A tube of light suspended or mounted on a wall at a single point.

* On very rare occasions, these lamps may appear to have a slight buzzing or flickering. As is the case with all retro LED lamps, this is likely caused by a number of outside influences such as incorrect installation, wiring, dimming or transformers and in some instances low electrical resistance.

** Please contact sales@kaialighting.com for further information on dimmers etc. Please note KAIA Ltd cannot take any responsibility for the connection with your dimming or central control system. It is the customer's responsibility to ensure the compatibility with their systems.
