

Design by Welling Ludvik

Máni

Within the extensive Máni collection, we explore the concept of the multifunctional shell, designed to complement a variety of bases. Up to 80 potential combinations between bases and plastic or upholstered shells can be created. With comfortable padding and adaptable dimensions, it's well-suited for hospitality spaces. Accessories such as cushions, attachment systems, armrests, tables, and handling carts further enhance its functionality, making it the ideal seating solution for collective environments like auditoriums, classrooms, and training rooms.

All'interno della vasta collezione Máni, esploriamo il concetto della scocca multifunzionale da abbinare a una varietà di basamenti. È possibile creare fino a 80 combinazioni tra basamenti e scocche in plastica o tappezzate. Con imbottiture confortevoli e dimensioni adattabili, si adatta perfettamente agli spazi ospitalità. Accessori come cuscini, sistemi di aggancio, braccioli, tavolini e carrelli per la movimentazione ne aumentano ulteriormente la funzionalità, rendendola la soluzione ideale per sedute in ambienti collettivi come auditorium, aule e sale per la formazione
