SIMON JAMES

The Auctioneer collection consists of a chair and modular sofa system that allows you to build and create the ideal configuration for your home or work space. Each piece is made individually and joined together by our custom locking system, with the option of an inbuilt side table between modules. Its multi-density foam seat and back are designed to give a supportive yet comfortable experience, offset by its refined arm detailing.

Available in a wide selection of fabrics suitable for creating a sophisticated atmosphere in lobbies and other areas of lounging.
