SIMON JAMES

The Block Collection by Simon James explores its archetypal form and is stripped back to the essentials, offering a barstool and stackable timber chair that is versatile for home, hospitality, and commercial spaces.

The squared frame is further emphasised by bold block detailing at its junction point where the seat meets the legs, giving both structural integrity and a distinct character to the design. Rounded external leg corners soften the overall silhouette.

Robust in stature, Block presents a refined, timeless form that is highly durable, stackable and certified for heavy commercial use. It is crafted in FSC certified timber, and available in three finishes.
