SIMON JAMES

The Principle series is a new collection of tables, crafted from solid oak, that honours timber in its most natural form. The balance between the sculptural shape and natural materials reveals a table that is sophisticated yet solid. The Principle dining table is a modern take on the original four leg dining table silhouette. Constructed from solid oak, this table celebrates the connection points where the corner leg is fixed to the frame. The leg location allows the user to maximize the seating space in between. The table appears to float on the ground by reducing it to its essential elements, creating a refined and perfectly proportioned table that celebrates timber in its natural form. A well crafted piece that will work harmoniously within many spaces and environments for years to come.
