SIMON JAMES

The Shade Table by Simon James translates bold, brutalist forms into a large dining or meeting table. Inset block legs of significant proportions create both generous seating space and a grounded presence, whilst a subtle cantilever of the table top gives lightness to the overall composition.

The Meeting Table is available in a laminate or timber veneer top, with the laminate offering a durable, scratch-resistant matte finish. A solid timber clashing adds further resilience for high-use commercial environments. Designed for generous meeting or boardroom settings, it is available in a range of sizes and comfortably accommodates larger groups. Integrated soft wiring is available where required.
