# SIMON JAMES

The Sur Timber Sofa by Simon James is a modular sofa system that allows you to build and create the ideal configuration for your home. Subtle sculptural curves are offset by the grounded form and generous size, creating a sofa that is both inviting and refined.

Modules are united by a timber plinth base, a modern yet practical detail that builds the visual language of the sofa and cleverly allows extra surface space when needed. The seat and back are composed of multi-density foam and feather fill, designed to offer superior comfort. Subtle curves to the backrests and arms further add to this sculptural visual language.

The Sur Sofa is available as a 2.5, 3 and 3.5 seater, as well as various modular configurations. Throw cushions are sold separately.
